Remote Healthcare Specialists

With more than 20 years experience, Medical Support Solutions is the ideal partner for Integrated Healthcare Solutions for the remote and offshore environment.

We firmly believe in the value of healthcare on remote, offshore and high-risk environments. We also know that in the current global economic climate, cost can influence the type of healthcare our clients can afford.

We strive to meet this challenge with a pragmatic approach, innovative thinking, products and costing models.

Properly organised healthcare systems on remote sites can reduce the incidence of Lost Time Injuries, costly evacuations, Malaria complications and even fatalities.

The utilization of safety/medics in remote operating areas is a proven benefit in ensuring timely treatment, mitigating injury severity and containing medical costs. Simply put, "An ounce of prevention is worth a pound of cure," or "Pay now or pay more later."

* Quoted from Drillingcontractor.org: "Numbers show: Good safety is good business"

Our approach to remote healthcare is aimed at identifying and treating medical conditions on board before they lead to down time or become serious emergencies.

Medical Professionals

Paramedics, Doctors, Nurses and National Healthcare Professionals - from single medic to multi-staffed, multi-disciplinary teams.

Equipment and Medications

Our solutions help to reduce unnecessary evacuations, manage Injury On Duty cases and provide rapid Advanced Life Support in an emergency.

Top-Cover and Evacuations

MSS facilitates appropriate, rapid evacuations, with Top-Cover medical support by Specialist Physicians.

Our Emergency Physicians provide clinical guidance, quality assurance and treatment validation for Injury On Duty cases.

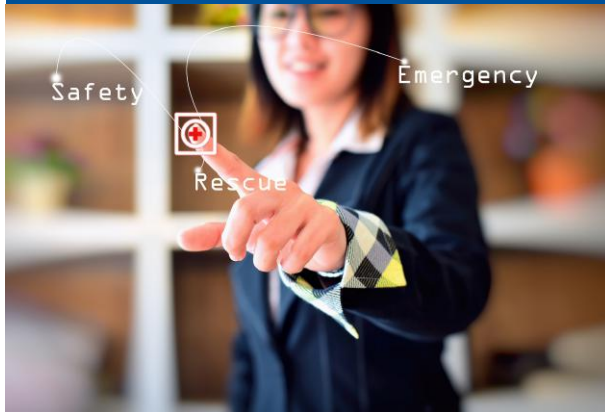

MSS can provide Basic and Enhanced Telemedicine Capability.

IADC, OGP & OSHA Awareness

We understand the impact that an Injury on Duty case has on the patient and employer.

Our medical professionals have a thorough understanding of Injury on Duty and treatment implications.

By providing appropriate medical care and interventions, we go a long way to ensuring that the patient receives the right care, in the right way.

What We Bring With Us

Medical Services in a remote environment is more than just a medical professional and equipment. In addition to our products, services and technical expertise, Medical Support Solutions brings additional value to our clients:

ISO9001:2015 Quality

Direct operational and medical support

Insurances

Current medical and clinical guidelines

Preventative equipment maintenance

Detailed reports and statistical analysis
